SD-WAN

Add advanced application and business analytics insights into an existing managed service offering to further differentiate in the market

DNA Center

Extend modern infrastructure management that leverages AI/ML to manage the complete end-to-end business application

Why AppDynamics?

- One of the fastest growing enterprise software companies ever
- Gartner Leader Magic Quadrant for Application Performance Management 7 years in a row
- The largest global brands rely and trust AppDynamics including 10 of 10 top banks & 9 of 10 top telcos

“The ability to trace a transaction visually and intuitively through the interface was a major benefit that AppDynamics delivered. This visibility was especially valuable when Nasdaq was migrating a platform from its internal infrastructure to the AWS Cloud.”

- Heather Abbott,
Senior Vice President of
Corporate Solutions Technology,
Nasdaq
